

Course details

This is an exciting and new qualification from WJEC allowing you to gain a wealth of knowledge about Food Science and Nutrition

There is a strong emphasis on practical work, making it ideal for learners who enjoy learning by doing too!

You will have the opportunity to learn about :

- The relationship between the human body and food
- Practical skills for cooking and preparing food

Therefore you need to be passionate about food and food science. You will need to be imaginative and creative want to know about the science of food.

I ♥ FOOD
SCIENCE

COURSE STRUCTURE

You must complete three units in order to obtain the Diploma.

Two are mandatory and one is an optional unit.

Unit 1 Meeting Nutritional Needs of Specific Groups-

Controlled Assessment and Examined unit.

This unit enables students to demonstrate and understanding of the science of food safety, nutrition and nutritional needs in a wide range of contexts.

Unit 2 Ensuring Food is Safe to Eat- Examined unit

This enables students to develop an understanding in the science of food safety and hygiene.

Optional units

Unit 3 Experimenting to Solve Food Production Problems

Unit 4 Current Issues in Food Science and Nutrition.
